The Black Madonna and Christ: What The Da Vinci Code Did Not Say Gert Muller

This is a powerful presentation of the astonishing fact that amongst White European nations their most sacred icons of the Madonna and Christ are black in colour. This comprehensive book shows you the images in full glorious technicolour. It is the only place where the profound national historical significance of these black images is discussed. They are so little known in comparison to their great importance. A must buy for those interested in a historically correct image of not just Jesus Christ, but the whole concept of deity in ancient times.
