**The Track of the Jew through the Ages** Alfred Rosenberg

Translated with an Introduction and Notes by Alexander Jacob.

This classic study of the Jews, written when Rosenberg was only twenty three years old, is based on an astonishingly wide range of historical sources and marked by the clearest understanding of the essential spiritual and intellectual differences between the Jews and the Europeans.

Tracing the history of the Jews in Europe from the Middle Ages to the Russian Revolution, it reveals the frighteningly ruthless manner in which the Jews, always a state within any state, gradually succeeded in destroying all the European empires in their aim of establishing a Zionist world-republic.

*In the final analysis, the real danger of such a world-republic (which continues today under the guise of globalism) is seen to be that, by violently undermining the spiritual cultural foundations of the European states, it subjects the European peoples to a despotism whose intellectual aridity and obscenity are plainly revealed in the Talmud.*
