Altered States Volume I Laura Harner, T.A. Webb

Two years ago the world, the world wasn't ready to learn vampires and werewolves existed—but then again, you don't always get what you hope for.

Warning: This is an erotic urban fantasy. In this series the vampires don't sparkle, werewolves kill, and the men sometimes have sex. With each other.

This boxed set includes the full versions of:

Altered States (The Prequel): New Orleans Police Detective Sam Garrett can't believe his bad luck when he's assigned to investigate a string of gay-bashings turned deadly in the French Quarter. Especially when he realizes Travis Boudreaux, his new, hot, and most-likely-straight partner, plans to use him as bait. The worst part? They've got no back-up because the rest of the city is preoccupied by another series of killings — the victims drained of blood.

Deep Blues Goodbye: The world might not have been ready for vampires when NOPD Detective Travis Boudreaux had the bad taste to sit up at his own funeral, but two years later, the new cause célèbre is civil rights for preternatural beings and most humans are on the bandwagon. Except whoever is killing vampires and wannabes.

Detective Sam Garrett hates all things preternatural. Having your undead partner try to make you his first meal will do that to a guy. One final screw-up gets Sam banished to the Paranormal Criminal Investigations Unit—the Odd Squad—under the oversight of Detective Danny Burkette.

Now it's up to Burkette to work with Garrett by day and Boudreaux by night as they follow a trail of clues that leads from the historic cemeteries of New Orleans to the bayous of southern Louisiana. Under the all-too-interested gaze of a Master vampire and the local werewolf pack Alpha, they discover some lessons in life—and death—take longer to learn...and not all second chances are created equal.

Deadly Shades of Gold: “Wolf or vamp? Decide. It has to be now.”

Those were the last words Sam Garrett ever heard—as a human. Now on the para side of normal, the NOPD slammed the proverbial door on his career.

Travis Boudreaux knows exactly how his former partner feels—but when some doors close, the golden window of opportunity opens. Crimes against supernaturals require a new and different approach, and once the Feds show up, the Odd Squad isn't the only law enforcement game in town.

After a revenge-seeking vampire creates deadly havoc, the new agent-in-charge is on a recruiting mission—and he's more than ready to fight fire with fire. What do you get when you mix old friends, new enemies, and a license to kill?

Pure dynamite.
