## **General Surgery: Advance Medical Directive/Patient Safety (Audio-Digest Foundation General Surgery Continuing Medical Education (CME). Book 58) Audio Digest**

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners – physicians and other healthcare professionals – with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice.

Audio-Digest General Surgery is specifically designed to provide the participant with state-of-the-art information, including, but not limited to:

Hazards in the operating room  
Professional liability, risk management, and quality improvement  
Blood products and transfusion issues  
Comorbid illness in the surgical patient  
Surgical management of oncologic conditions  
Intraoperative and postoperative infection  
Preoperative patient evaluation, including surgical risk assessment  
Critical care, postoperative recovery and complications  
Management of acute and chronic pain  
Trauma and burns

The goal of this program is to improve end-of-life care and patient safety. After hearing and assimilating this program, the clinician will be better able to:

- 1: Recognize the limitations of advance directives.
- 2: Cite the advantages of the physician order for life-sustaining treatment (POLST) over an advance directive.
- 3: Answer frequently asked questions about the POLST.
- 4: Use surgical checklists to improve quality control.
- 5: Identify and avoid major sources of medical errors in hospitals.
