Go in Practice

Matt Butcher, Matt Farina

Go in Practice Matt Butcher, Matt Farina

Go may be the perfect systems language. Built with simplicity, concurrency, and modern applications in mind, Go provides the core tool set for rapidly building web, cloud, and systems applications. With superstar projects like Docker giving the language a high-visibility boost; it's no wonder that companies are clamoring for experienced Go engineers. With knowledge of a language like Java or C#, it's easy to get started with Go; the trick is finding the practical dirt-under-the-fingernails techniques that are needed to build production-ready code.

Go in Practice guides readers through dozens of real-world techniques in key areas like package management and microservice communication. Following a cookbook-style Problem/Solution/Discussion format, this practical handbook builds on the foundational concepts of the Go language and introduces specific strategies that can be used in day-to-day applications. Readers will learn techniques for building web services, such as using Go in the cloud, testing and debugging, routing, and network applications.

Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications.

From reader reviews:

David Pell:

Spent a free time to be fun activity to complete! A lot of people spent their leisure time with their family, or all their friends. Usually they performing activity like watching television, planning to beach, or picnic inside the park. They actually doing same every week. Do you feel it? Do you need to something different to fill your own free time/ holiday? Might be reading a book could be option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of guide that you should read. If you want to consider look for book, may be the reserve untitled Go in Practice can be very good book to read. May be it might be best activity to you.

Evelyn White:

Precisely why? Because this Go in Practice is an unordinary book that the inside of the publication waiting for you to snap the idea but latter it will jolt you with the secret that inside. Reading this book close to it was fantastic author who write the book in such awesome way makes the content within easier to understand, entertaining way but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this any more or you going to regret it. This amazing book will give you a lot of benefits than the other book include such as help improving your proficiency and your critical thinking means. So , still want to delay having that book? If I were you I will go to the guide store hurriedly.

Nicholas Valles:

Beside this kind of Go in Practice in your phone, it may give you a way to get closer to the new knowledge or details. The information and the knowledge you are going to got here is fresh in the oven so don't be worry if you feel like an previous people live in narrow small town. It is good thing to have Go in Practice because this book offers to you readable information. Do you often have book but you would not get what it's all about. Oh come on, that won't happen if you have this inside your hand. The Enjoyable option here cannot be questionable, just like treasuring beautiful island. Techniques you still want to miss it? Find this book as well as read it from today!

Chester Brown:

Do you like reading a book? Confuse to looking for your chosen book? Or your book has been rare? Why so many query for the book? But almost any people feel that they enjoy with regard to reading. Some people likes examining, not only science book but in addition novel and Go in Practice or perhaps others sources were given information for you. After you know how the truly amazing a book, you feel wish to read more and more. Science publication was created for teacher or students especially. Those books are helping them to put their knowledge. In additional case, beside science e-book, any other book likes Go in Practice to make your spare time more colorful. Many types of book like here.
