This book presents the state of the art in advanced customization within the sector of architectural design and construction, explaining important new technologies that are boosting design, product and process innovation and identifying the challenges to be confronted as we move toward a mass customization construction industry. Advanced machinery and software integration are discussed, as well as an overview of the manufacturing techniques offered through digital methods that are acquiring particular significance within the field of digital architecture. CNC machining, Robotic Fabrication, and Additive Manufacturing processes are all clearly explained, highlighting their ability to produce personalized architectural forms and unique construction components. Cutting-edge case studies in digitally fabricated architectural realizations are described and, looking towards the future, a new model of 100% customized architecture for design and construction is presented. The book is an excellent guide to the profound revolution taking place within the fields of architectural design and construction, characterized by computational tools, advanced fabrication means and custom-made high-performance architecture.

**From reader reviews:**

**Leticia Nielson:**

Hey guys, do you really wants to finds a new book to learn? May be the book with the headline Advanced Customization in Architectural Design and Construction (SpringerBriefs in Applied Sciences and Technology) suitable to you? Typically the book was written by famous writer in this era. The actual book untitled Advanced Customization in Architectural Design and Construction (SpringerBriefs in Applied Sciences and Technology) is one of several books which everyone read now. This specific book was inspired many men and women in the world. When you read this guide you will enter the new way of measuring that you ever know prior to. The author explained their strategy in the simple way, thus all of people can easily to comprehend the core of this reserve. This book will give you a large amount of information about this world now. To help you to see the represented of the world in this book.

**James Ames:**

This Advanced Customization in Architectural Design and Construction (SpringerBriefs in Applied Sciences and Technology) is great reserve for you because the content which is full of information for you who have always deal with world and get to make decision every minute. This kind of book reveal it info accurately using great organize word or we can declare no rambling sentences in it. So if you are read it hurriedly you can have whole data in it. Doesn't mean it only will give you straight forward sentences but hard core information with wonderful delivering sentences. Having Advanced Customization in Architectural Design and Construction (SpringerBriefs in Applied Sciences and Technology) in your hand like obtaining the world in your arm, details in it is not ridiculous a single. We can say that no reserve that offer you world inside ten or fifteen second right but this book already do that. So , this is certainly good reading book. Heya Mr. and Mrs. occupied do you still doubt that?

**Charles Bock:**

Beside this particular Advanced Customization in Architectural Design and Construction (SpringerBriefs in Applied Sciences and Technology) in your phone, it could give you a way to get closer to the new knowledge or info. The information and the knowledge you may got here is fresh from oven so don't always be worry if you feel like an previous people live in narrow town. It is good thing to have Advanced Customization in Architectural Design and Construction (SpringerBriefs in Applied Sciences and Technology) because this book offers for your requirements readable information. Do you oftentimes have book but you rarely get what it's exactly about. Oh come on, that would not happen if you have this in the hand. The Enjoyable option here cannot be questionable, just like treasuring beautiful island. Use you still want to miss it? Find this book and read it from currently!
