When you browse through the kindle store for prostate cancer books there are a many different books to choose from. Clearly there's a huge amount of interest in the topic.

However, many of them were created by doctors, and physicians. They have a lot of medical talk, scientific terms, advance text, etc. I'm sure it was not intended, but they read like a college course.

Well I am an ordinary guy who was diagnosed with prostate cancer in 2009. I personally experienced the PSA Test. The prostate biopsy. I got the phone call, that I will never forget, with the diagnosis. And I had the actual prostate removal surgery in 2010.

Each year thousands of men die from prostate cancer. The statistics can be frightening. But the statistics are also clear that many of us don't really know exactly what the male prostate is to begin with! We don't start educating ourselves until there is some kind of problem to us, or someone we love.

That is why I created this guide. It is intended to show men, and the women who love them, the absolute basics. From what exactly is the prostate. To what to expect before, during, and after the prostate biopsy. To the prostate cancer diagnosis. To the actual prostate surgery and the recovery afterwards.

**This prostate cancer guide is perfect for beginners.  
Everything is explained in simple, easy to understand,  
steps so that you can start learning what to expect:**

***\* What Exactly Is The Prostate***

***\* Most Common Prostate Problems***

***\* Prostate Tests***

***\* Examining The Prostate Directly***

***\* Prostate Biopsy***

***\* Options For Prostate Cancer Surgery***

***\* What To Expect After The Surgery***

***\* And Much More***

What makes this book unique compared to the other kindle books on the same subject is that it provides all the important information. However, it is not a 500 page college textbook, with excess information, that will require a large commitment of time just to read through it all.

It gives you all the information needed to educate yourself about Prostate Cancer. And begin dealing with whatever your own personal situation may be.
