Practical Dojo Projects (**Expert's Voice in Web Development**) Frank Zammetti

The era of professional JavaScript development has arrived! Gone are the days when writing all the client–side code for your applications by hand yourself was the norm. Gone are the days when scrounging around the Internet to find a snippet of code to do something you need could lead to either decent code or utter garbage that you'd surely regret using later.

No, writing high–quality JavaScript these days is a whole lot easier with the advent of top–notch libraries that save you time and effort, and one that stands out from most others is Dojo.

Dojo is a library like few others: written by some of the best JavaScript coders around today, providing nearly everything you'll need to write modern rich Internet applications, all in one place. From Ajax to widgets, to client–side persistence and language extensions, and many points in between, Dojo has it all.

In *Practical Dojo Projects*, you'll learn all about what Dojo has to offer. You'll see it in action in the form of five fully functional applications, which include

- A contact manager for storing info for all the important people in your life
- A code cabinet: a place to store, index, and get code snippets from
- A stock tracker to keep track of your stock portfolio
- A message forum for open discussions on topics you define
- Even a fun little game!

By the time you've finished reading, you'll have a firm grasp on what Dojo is all about, and you'll have the preparation you need to begin to use it yourself in your own projects. See you inside!

What you'll learn

- Uncover the fundamentals of Dojo, its core, Dojo Widgets, and DojoX.
- Build sophisticated JavaScript/Ajax–based applications starting with a Dojo contact manager.
- Create a code cabinet, a place to store snippets of code for later reuse using Dojo and Dojo Offline (based on Google Gears).
- See how to build an interactive and fun came application using Dojo.
- Build a stock watcher application, which allows you to enter ticker symbols and will show you real–time updates using some available web service; show net gain/loss over various time periods (hourly/daily/weekly/monthly/yearly) with various charts and graphs.
- Take Dojo into social networking by building a messaging forums application.

Who this book is for

Web application developers, senior projects leads, and application architects.

From reader reviews:

Annette Morrison:

Nowadays reading books are more than want or need but also work as a life style. This reading addiction give you lot of advantages. Associate programs you got of course the knowledge even the information inside the book this improve your knowledge and information. The details you get based on what kind of book you read, if you want get more knowledge just go with knowledge books but if you want truly feel happy read one having theme for entertaining such as comic or novel. Typically the Practical Dojo Projects (Expert's Voice in Web Development) is kind of e-book which is giving the reader unforeseen experience.

Adam Jones:

Reading can called head hangout, why? Because when you find yourself reading a book mainly book entitled Practical Dojo Projects (Expert's Voice in Web Development) your thoughts will drift away trough every dimension, wandering in every aspect that maybe unfamiliar for but surely can be your mind friends. Imaging every single word written in a reserve then become one form conclusion and explanation in which maybe you never get before. The Practical Dojo Projects (Expert's Voice in Web Development) giving you one more experience more than blown away your mind but also giving you useful info for your better life on this era. So now let us present to you the relaxing pattern the following is your body and mind are going to be pleased when you are finished reading it, like winning a sport. Do you want to try this extraordinary investing spare time activity?

Cameron Rodriquez:

This Practical Dojo Projects (Expert's Voice in Web Development) is great e-book for you because the content that is full of information for you who have always deal with world and have to make decision every minute. This particular book reveal it details accurately using great organize word or we can claim no rambling sentences included. So if you are read that hurriedly you can have whole data in it. Doesn't mean it only gives you straight forward sentences but hard core information with beautiful delivering sentences. Having Practical Dojo Projects (Expert's Voice in Web Development) in your hand like obtaining the world in your arm, details in it is not ridiculous one. We can say that no publication that offer you world throughout ten or fifteen small right but this guide already do that. So , this is good reading book. Hey there Mr. and Mrs. hectic do you still doubt this?

Eugene Meunier:

Is it you actually who having spare time after that spend it whole day by simply watching television programs or just telling lies on the bed? Do you need something totally new? This Practical Dojo Projects (Expert's Voice in Web Development) can be the solution, oh how comes? A fresh book you know. You are thus out of date, spending your free time by reading in this brand-new era is common not a geek activity. So what these textbooks have than the others?
