Equipment Theory For Respiratory Care Workbook Gary White

Designed to accompany Equipment Theory for Respiratory Care, Fourth Edition, this Workbook is intended to enhance the understanding of the material presented in the book, following the comprehensive, competency-based approach to learning about the equipment employed in the practice of respiratory care. Each chapter enables learners to define important terms, match relevant concepts, identify equipment components, solve theoretical and practical problems, and answer questions relating to the clinical application of the equipment. The Workbook is part of a complete learning solution, including a textbook, an Instructor's Manual, and an Electronic Classroom Manager that contains instructor support materials such as PowerPoint slides, an Image Library, and a Computerized Test Bank.
