Featherbones Thomas Brown

"Featherbones is an ethereal love song to a city by the sea. Thomas Brown's beautiful novel depicts a liminal world of statues, drownings and winged creatures. It's also a real page turner. I love this book."

Rebecca Smith, author of The Bluebird Café

"I loved the use of language, I loved the story and above all I loved the constant sensation that I was walking on the top of the dividing wall between reality and dream and imagination and past and present and future. I want to live on that wall for the rest of my life."

Bookrazy blog

"What to call this experience? Magical realism doesn't quite fit right. Magical-psychological-philosophical-realism. Maybe. This is a book that will be unlike any other that you have read.

"If you enjoy reading books that make you think, and make you wonder at the author's ability to turn every day ordinary into something else, something a bit more extraordinary, then I recommend this book to you."

Ionia Martin, Readful things blog

The book

Felix walks the same way to work through Southampton every morning, and the same way home again in the evenings. His life up to this point feels like one day repeated over and over; a speck of silt caught in the city's muddied waters. Sometimes it is all he can do to sit and watch while the urban sprawl races indifferently around him. But when the city stares back at him, one evening after work, everything changes.

He doesn't see the statue's head move, but he feels its eyes on him, studying him from its lofty perch in East Park. From then on he continues to glimpse it, or something like it, encroaching with every visitation. With it come memories, spilling through the streets, crawling through the dark, haunting his night-time flat, until he isn't quite sure what is real anymore and what is imagined, in this hard, grey place where the gulls watch him sleep...
