## **Of a Fire on the Moon** Norman Mailer

For many, the moon landing was the defining event of the twentieth century. So it seems only fitting that Norman Mailer—the literary provocateur who altered the landscape of American nonfiction—wrote the most wide-ranging, far-seeing chronicle of the Apollo 11 mission. A classic chronicle of America’s reach for greatness in the midst of the Cold War, *Of a Fire on the Moon* compiles the reportage Mailer published between 1969 and 1970 in *Life* magazine: gripping firsthand dispatches from inside NASA’s clandestine operations in Houston and Cape Kennedy; technical insights into the magnitude of their awe-inspiring feat; and prescient meditations that place the event in human context as only Mailer could.

“A wild and dazzling book.”—*The New York Times Book Review*

“Still the most challenging and stimulating account of [the] mission to appear in print.”—*The Washington Post*
