New Critical Perspectives on the Beatles: Things We Said Today (Pop Music, Culture and Identity)

The Beatles are probably the most photographed band in history and are the subject of numerous biographical studies, but a surprising dearth of academic scholarship addresses the Fab Four. *New Critical Perspectives on the Beatles* offers a collection of original, previously unpublished essays that explore 'new' aspects of the Beatles. The interdisciplinary collection situates the band in its historical moment of the 1960s, but argues for artistic innovation and cultural ingenuity that account for the Beatles' lasting popularity today. Along with theoretical approaches that bridge the study of music with perspectives from non-music disciplines, the texts under investigation make this collection 'new' in terms of Beatles' scholarship. Contributors frequently address under-examined Beatles texts or present critical perspectives on familiar works to produce new insight about the Beatles and their multi-generational audiences.
