Cyber Blackout

John A. Adams Jr.

Cyber Blackout John A. Adams Jr.

With over 140 countries fielding nation-state and rogue malicious cyber hacking capabilities, it is critical that we are aware of threats and vulnerabilities. Adm. Michael Rogers, director of the National Security Agency warned Congress regarding cyber attacks, "It's only a matter of the 'when,' not the 'if,' that we are going to see something dramatic." Cyber Blackout is a warning. It is a chronicle of the cyber threats of which we find ourselves at risk every day. Our power supply is vulnerable. Our food supply. Even the basics of communication. Every facet of our national security is vulnerable to cyber threats, and we are not prepared to defend them all. Cyber Blackout explains how these threats have been building since the Cold War, how they affect us now, and how they are changing the concepts of war and peace as we know them. It is essential knowledge for anyone wishing to understand safety and security in the age of the fifth domain.
