According to Statistics Canada, all crime rates -- including violent crime -- have been trending downward over the last twenty years. Yet the Harper government continues to insist Canadians are in the midst of a crime epidemic. This is their rationale for spending billions on new prisons, and for legislation that will put thousands more behind bars and increase the likelihood that young Canadians will have criminal records.

In this book, author Paula Mallea lays out the evidence that contradicts the government's claims. "Tough on Crime is actually lazy on crime," says Mallea. "It is certainly tough on taxpayers. A better approach is to be smart on crime." The Harper approach has been widely used in the United States, where governments are now turning away from measures which cost billions while producing few or no measurable benefits.

Fearmonger is a compelling critique of the financial as well as the human costs of the Harper tough-on-crime agenda.
